

# TYPES OF CARS

## 1. SEDAN

Sedans are one of the most common types of cars, characterized by their enclosed passenger compartments and separate trunk space.

## 2. SUV

SUVs are known for their versatility, offering a higher driving position, ample interior space, and often all-wheel drive or four-wheel drive capabilities..

## 3. HATCHBACK

Hatchbacks have a rear door that combines the trunk and rear window, making them more compact and accessible than sedans.

## 4. SPORTS CAR

Sports cars are designed for high-performance driving, prioritizing speed, handling, and agility

## 5. TRUCK

Trucks are versatile vehicles designed for transporting cargo, and they come in various sizes, from compact trucks to full-size pickups.
